

- Full Microprocessor Control
- Battery Autonomy Calculator
- Advanced Monitoring System
- Wide Input Voltage Range
- Automatic and Manual Bypass Function
- Cold Start Function
- Auto Restart Function
- Full Automatic Protection
- Advanced Battery & Charger Management
- Manual Output Voltage Adjustment
- Split Bypass Input
- 128 Events Log Recorder
- 12 Pulse Rectifier (Optional)
- High Performance
- Automatic Diagnostic
- Advanced Monitoring System
- Advanced Parallel Technology (Optional)
- Generator Compatible
- UPS Management Software
- Output Isolation Transformer
- StartUp Self Check
- Intelligent Battery Monitoring System (Optional)
- ECO Mode (Optional)
- 100% Unbalanced Load Drive Capability

AJ300 Series

10-80 kVA

On-Line

Low Frequency

3PH-3PH
